Unusual Event Was Celebrated Last Night at the Mathiesen Home in East Oakland.

ALBERT E. JONES.

A double wedding at which the brides were mother and daughter was the somewhat unusual event celebrated last evening at the home of Mrs. H. Mathiesen in East Oakland, at 3 o'clock. Mrs. M. Stade of Monterey decided that her marriage with E. Stierrett, a well known rancher, would lend unique interest to the marriage about to be solemnized, of her daughter, Minnie Stade and Albert E. Jones, of this city. The couple were willing

to delay their nuptials until the marriage license was secured about half past nine, when the brides were led to the altar by their respective husbands. The younger bride was attended by her sister, Miss Ella Stade and Alvin Mathiesen attended Albert Jones. Mrs. Stade and the second groom were escorted by Mr. and Mrs. Mathiesen. Rev. Charles R. Brown tied the double knot. The quartette with their friends and relatives enjoyed a late wedding supper. Congratulations were in order and a brief honeymoon will follow. Among those who gathered about the pretty table last evening to offer their felicitations were Mr. and Mrs. Mathiesen, Mr. and Mrs. William Mathievich, Mr. and Mrs. Arthur Harwood, Mrs. Francis Kohn, Miss Bertha Von Arx, Wayne Wright, Mr. Krause, Paul Balitz and others.

### ARMING HIS MEN

NEW YORK, Aug. 29.—The Times today says:

Another special train loaded with strikebreakers was started for San Francisco last night by James Farley, who has been employed to put an end to the big street railroad strike in the Golden Gate City.

Three Farley trains are now trying to cross the continent in four days, saving a day on the average passenger schedule.

Another train will leave Jersey City tonight and still another may leave tomorrow night.

#### GENERAL IN FIELD.

Farley's headquarters resembled the headquarters of a general in the field yesterday. His expedition is being equipped with ammunition, medical supplies and surgical attendance. Seventy-five rounds of cartridges have been ordered for the men, 100 revolvers of heavy caliber have been furnished and only the pick of the men seeking advantage or high wages has been selected.

Farley will send a New York surgeon, who will get in San Francisco a staff of assistants. He has already commissioned an agent to provide food for the men from New York and cities between here and Chicago, while other commissary agents will look out for the meat west of Chicago.

#### TALKS OF TROOPS.

The strike came a day or two before it was expected, and Farley had barely reached New York from San Francisco, to begin calling his force to the places of assembly, when he received a telegram at his hotel here that the strike had been ordered.

"The condition in San Francisco is a very serious one," Farley said last night. "I fear that it will be necessary to ask for the Federal troops. It is not only serious in the point of menace the peace of the city, but also in its menace of the future of the city. Unless the street car travel is resumed at once and kept up, hundreds of merchants will fail."

#### PISTOLS AND CARTRIDGES.

A fast automobile was kept at the disposal of the chief of the strike-

breakers yesterday, because every second counted. Telegraph messengers poured in and out of his office, and his clerical force was doubled. Badges, policemen's clubs, cartridges and cases of pistols were sent to various points of the city to supply the men being recruited here, while the men in charge of stock and the trains with food were busy among the wholesale grocers, ordering what was needed.

#### UNIONS OPPOSE.

The movement of his army of strikebreakers is not being accomplished without opposition from the unions, for not a few union men attempted to pass as would-be strikebreakers, but were ejected from the trains, and his recruiting agents and lieutenants have blacklists which are being used to prevent agents of the union from coaxing the strikebreakers to abandon their jobs. As soon as he has 2500 men on the way, Farley will leave New York on a fast train for the coast.

#### CONDITIONS WORSE.

SAN FRANCISCO, Aug. 29.—The fourth day of the street car strike found the disputing parties further apart than ever. The refusal of the men to report for work and the announcement of the corporation that it is bringing out Farley's strike-breakers contributed to lessen the hitherto friendly feeling existing between employer and employee.

#### CARMEN NOT DISTURBED.

The carmen declare they are not disturbed by the coming of Farley's men. They say that western conditions are utterly dissimilar from those of Eastern states and that the non-unionists will encounter entirely unlooked for obstacles. The railway officials have thus far declined to say when they will attempt to begin operating their lines.

#### FARLEY EXPECTED.

Farley is expected Saturday or Sunday and if the company contemplates putting any of its plants in motion before that time the move is being carefully guarded. At the various car barns the company has its guards and union men are on picket duty, but the best of order prevails. Reports are being circulated that disinterested men of prominence are endeavoring to bring the disputants to an amicable conference. Mayor Schmitt may try

### BEATEN AND ROBBED BY MASKED MAN

Laborer Is Injured by Thug Who Takes His Money.

P. Burke, a laborer, was knocked down and robbed of \$74 by a masked footpad last night, just as he was entering his lodging-house at Sixth street and Broadway.

As Burke was going home he noticed a man following him down Broadway, but the man was not masked. As he reached Sixth street, however, he was assailed by the man who had tied a handkerchief over his face. The highwayman struck him from behind with a club, and he was rendered unconscious, but he recovered soon afterward and went to the Receiving hospital for treatment. It was found there that he had received a contusion of the nose when the thug swung his club. He was treated by Steward Rorchert.

### PRISONER CALMLY LEAVES JAIL

Confusion of Policemen Give Chance for Escape.

SAN FRANCISCO, Aug. 29.—Fred Burt, an old offender accused of burglary, walked out of the Mission-street station this morning, after he had been booked and now there are at least three policemen who are busy looking for him.

The man was arrested by Policeman Young in a tool house which he was looting. He was turned over to Sergeant O'Brien, who says he turned the prisoner over to Policeman Morrow to take to the O'Farrell-street station. Between the three policemen there was a confusion of responsibility and the alleged burglar improved the opportunity by walking out into the early morning air and making himself scarce.

The man had been arrested a number of times before and his capture is considered only a matter of time.

### COMPLAIN OF DIRTY STREETS

BERKELEY, Aug. 29.—The regular meeting of the Ashby Improvement Club was held in the Peralta fire house last night. President Hickok presided. Reports regarding street work were read. Mr. Hickok reported that the Contra Costa Water Company had completed the street work on Carlton street, Ashby and Telegraph avenues. He complained about the dirty condition of the streets and will request of the street superintendent that all weeds and dust be removed. President Hickok and the members of the Ashby Improvement Club intend to complain of the street superintendent for not inducing President Calhoun of the company and President Cornelius of the union to meet on a friendly footing today. Whether he will succeed will be developed by the day's happening.

### Commander of Government Forces in Pinar del Rio Seeks the Main Body of Insurgents.

HAVANA, Aug. 29.—The actual pursuit of Pino Guerrera began today when, Colonel Avalos, commander of the government forces in Pinar del Rio, left San Juan de Martinez in search of the main insurgent body. The latter is now estimated to number 2000 men. If Guerrera's recent statements can be considered trustworthy, there will be no battle if he can help it. He has repeatedly declared that he does not want to cause bloodshed. The general opinion, however, is that he will soon be drawn into a battle if, indeed, he does not suddenly assume the offensive. Progress is being made daily in arming, equipping and forwarding government troops to the disturbed districts.

#### TOBACCO AND SUGAR.

Neither the tobacco or sugar interests of the island has suffered to any extent from the effects of the insurrection. Luis Marx, general manager of all the agricultural operations of the American-British corporation, said to the Associated Press today:

The Governor of Matanzas telegraphed this afternoon that General Garcia had arrived at San Pedro de Mayaban with Colonel Lelaseca and Major Almeida, the two chief lieutenants of ex-Congressman Carlos Mendizola forces, who voluntarily surrendered to Garcia with their arms, ammunition and horses. This is considered to be a serious blow to the insurrection in Santa Clara.

#### INSURGENTS ARRESTED.

Seventeen recruits belonging to one company of the Rural Guards, who were alleged to have planned desertion to the insurgents, have been arrested and placed in jail here. The cost of the work of attempting to suppress the insurrection up to the present time has been over half a million dollars.

### THIS MAN DON'T LIKE REPORTERS

BERKELEY, Aug. 29.—Prof. George Holmes Howison read a firm yesterday his determination to exclude newspaper men from his classes in philosophy. Prof. Howison's attitude in regard to the newspapers occasioned considerable comment about six months ago when he refused to allow a representative of the college daily to enter his class in Philosophy 4. "I am not a person who is easily annoyed," he said yesterday. "If any of you come as visitors merely, he continued, 'it is all very well, but if you come here as newspaper men and reporters in the guise of visitors, I will not permit you to remain.' When seen this morning in regard to his action yesterday, Prof. Howison at first refused to say anything, but finally broke out in the following tirade against reporters: "I do not see what business the newspapers have to bother about the University anyhow. Reporters have no business with my lecture courses. The same applies to all the other here as newspaper men and reporters in the guise of visitors, I will not permit you to remain." ## LAWYERS MEET AT ST. PAUL

American Bar Association Favors Federal Supervision of Insurance

ST. PAUL, Minn., Aug. 29.—Five hundred prominent lawyers from nearly every State in the union gathered in St. Paul today to attend the twenty-ninth annual meeting of the American Bar Association, which will be held in the house of representatives chamber of the State Capitol. The first session was called to order by George R. Peck of Chicago, president of the association.

A warm debate is expected when the committee on insurance law presents its report. Federal supervision over insurance is favored by a majority of the committee, who, in their report hold that insurance is interstate commerce. A vigorous minority report will be sent to the association, attacking this theory.

The report of the committee on the proposition to create a court of patent bills recommends that a bill be passed by congress creating such a court, to be presided over by five judges, who shall sit on cases arising over patents. In the report of the committee on a code of professional ethics a stinging rebuke is meted out to the "shyster" lawyers. President Peck delivered his annual address, which was received with generous applause.

The nomination and election of members was then taken up. This was followed by the election of the general counsel, the reports of the secretary, treasurer and the executive committee.

## WILL SCOUR THE CHANNEL

Spur Dyke Being Constructed For Work In Bay Waters Near Mare Island.

VALLEJO, Aug. 29.—A spur dyke for continued scouring and deepening the Mare Island channel is now being constructed from a wharf on the Vallejo side of the stream. Funds for constructing a dyke outward from the Mare Island lighthouse are also on hand, it is understood. The object of this dyke is to keep the flow of mud from the San Pablo shoals from sweeping around the point of the island with each flood tide and filling up the strait. With these two dykes finished, all the work undertaken two years ago for giving sufficient water for the biggest ship afloat to approach the navy yard will be completed.

Great improvements have been made with the \$200,000 appropriated for the yard and docks and for constructing dykes, and the navy yard officials state that there is now no reason why the big ships of the navy cannot come to Mare Island for repairs.

The California and the Milwaukee, when completed, will come to the yard for commissioning and fitting out. The gunboat Bennington is to have all her bottom and island machinery and boilers removed, after which it is expected that she will be entirely refitted and again placed in the Pacific squadron.

**BEEES DRIVE HIS CUSTOMERS AWAY**

BERKELEY, Aug. 29.—The bees of Berkeley have deserted the woods and have come to town. J. E. Morehouse was attracted to the front of his grocery store on Shattuck avenue yesterday by a loud and continuous buzzing sound. He found that a swarm of bees were about to locate in the show window. They were coming through the door in a constant stream and seemed to be particularly attracted by a snug corner among some oyster cans. Morehouse now intends to hang out a new sign in front of his show window.

**SENIORS TO WEAR CAP AND GOWN**

BERKELEY, Aug. 29.—The senior women will wear the cap and gown to which their dignity entitles them—not every day, however, but to all university meetings after next Friday. The committee of senior women appointed at the meeting yesterday to procure the caps and gowns comprises the Misses Mabel Goddard, Marian Edwards and Hazel Hogan. It will read "Honey White You Wait." The bees remained in the store all yesterday afternoon, but did not, however, prove an attraction to customers. Morehouse did most of his business through the rear door or over the telephone.

DOUBT VALUE  
OF EDUCATION

Professor Miller Says Many People Are Skeptical As To Its Advantages.

BERKELEY, Aug. 29.—"Many people are still in doubt as to the value of a university education to the business man," said Professor A. C. Miller in his first lecture before the College of Commerce of the university yesterday. He continued:

"A university is supposed by many to stand for other things than those of the business world; in fact there are many who believe that during a college career, men and women should be educated from the business world. However, this idea is rapidly disappearing and the standards of instruction at the university have been affected by its business character. President Wheeler said the highest tribute possible to the college of commerce in May last when he said that a better work was done in any department."

"The college does not guarantee that its graduates will make a success, for they will not be captains of industry. If the college of commerce were to make such promises, it would not go farther than the law schools, the medical colleges, and the engineering department. Success depends upon the individual but the function of a university training is to aid a man to find out what he can do. We can teach you how to organize modern business enterprises, however, we cannot teach you how to succeed. The graduates of this college will enter the business world better equipped, and more able to overcome its obstacles."

"There is also a doubt as to whether the education of men for commercial enterprises is a lowering of the dignity of the university atmosphere of a university. The world business covers a multitude of activities. The business man will readily see that the business profession is as noble a profession as medicine or law."

"There is a great difference now going on in the business world. It will soon be looked upon in another light, that of rendering a public service. In general we find that a man never amounts to much in any profession without character."

TRUSTEE FERRIER  
RETURNS FROM NORTH

BERKELEY, Aug. 29.—Town Trustee Ferrier returned to Berkeley Monday after an extended visit in the north and northwest. Ferrier spent the three months of his trip transacting business and studying the municipal government of the principal cities of the States of Oregon and Washington and of British Columbia.

Among the most important places visited were Portland, Seattle, Vancouver and Victoria. In relating his trip Trustee Ferrier was enthusiastic in his praise of the methods of government and business enterprises of these cities. Several large deals were consummated by Ferrier during his absence, and he gathered much information that was not only a benefit to him but to Berkeley as well.

## A Friend in Need—

WHAT this little 10-cent box of Cascarets. When carried constantly in your Vest Pocket, or in "my Lady's" Purse it will ward off ninety per cent of Life's ordinary ills. Eat one of the six candy tablets contained in that "Vest Pocket Box" whenever you suspect you need one. It can't hurt you, and is sure insurance against serious sickness.

Want of Exercise, Indoor Employment, weaken the Bowel Muscles, just as they weaken Arm and Leg Muscles. The Muscles lose tone, tension, strength, to force the food onward. And the longer they stay in that state the weaker they become, because the less exercise they get through the slow passage of food. Cascarets contain the only combination of drugs that acts on the Muscles of the Bowels and Intestines, just as Cold Water, or Exercise, act on a Lazy man. They act like Exercise.

When you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-rising-in-throat, Gas-belching, or an incipient Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause. Nip them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving" "Physics."

They act like Exercise on the Bowel-Muscles that propel Food, and that squeeze the Natural Digestive Juices of the body into Food.

Cascarets ward off, or cure, the following diseases:

Constipation Bad Breath Biliousness Diabetes

The marriage ceremony was performed at the home of the bride's parents, Dr. Ray Palmer of Portland, Oregon, an intimate friend of the bride's father, officiating. Miss Lillian Parker and Charles Gilchrist acted as bridesmaid and best man.

Constipation Nausea  
Colic Vertigo  
Sciatica Pimples  
Womanly Troubles  
Worms Blotches  
Piles Eczema  
Ulcers Dysentery

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

A coming Headache can be warded off in short order, by a single Cascaret, and the cause removed.

Heartburn, Gas-belching, Acid-rising-in the throat, and Colicky feeling are sure signs of bowel trouble from food poisons, and should be dealt with promptly.

One Cascaret will stop the coming trouble, and move on the Bowel laid, if taken at the first signs.

WANTS SCHOOL  
IN THE WARD  
DISTRICT

BERKELEY, Aug. 29.—At a meeting of the board of education last night, a resident of the Ward street district, where the children are obliged to walk many blocks to attend the Longfellow school, declared that a school had become a necessity for that neighborhood.

"There is danger," he said, "in taking the children to and from school in the omnibus which is now used, as the driver is inexperienced and the horse spirited. Between thirty and forty pupils live in the Ward district."

Director Lewis declared that the pupils spent in transporting the pupils would pay the running expenses of the school. The superintendent expressed it as his opinion that if this school was established, it would be detrimental to the Longfellow school.

The matter was left in the hands of the Superintendent, who said he would see to it that a good covering should be obtained for the omnibus before the rainy season set in, and that a good driver should be employed. He would have, he said, all these pupils dismissed at the same time so that they might all be given transportation to their homes.

FIRES SHOT  
THROUGH DOOR

Believing Wife to Be Unfaithful, Saloon-Keeper Attempts to Murder Spouse.

MARTINEZ, Aug. 29.—Declaring that his wife, Anna, had been unfaithful to him and had left him for the society of other men, Alonzo Goularte, a saloon-keeper of Alamo, on Tuesday night crept to the door of Mrs. Goularte's room in the Bunker hotel, and hearing the voice of his wife and a male companion behind the closed door, placed a revolver at the keyhole and fired a shot into the room.

The bullet narrowly missed the woman, and striking the corner of the stand, went through the door into the room below. After firing the shot Goularte made his escape from the building and left town in a buggy. He has not yet been apprehended.

Goularte and his wife were married two years ago in Hayward and about a month ago Mrs. Goularte, a pretty brunette, 18 years of age, left her husband, alleging that he beat her and in other ways treated her cruelly. The woman came to Martinez, where she secured employment, and shortly afterward her husband opened a saloon in Alamo. A few days ago the board of supervisors revoked his license, alleging that he was in collusion with a band of thieves who robbed a man in the saloon.

Goularte charged his wife with having deserted him for another man and the wife on her part declares that her husband neglected her for other women. Mrs. Goularte went to San Francisco today to stay with friends, saying before she left that she feared to remain within reach of her husband.

Borwell has again disturbed the peace of his wife and at an early hour yesterday morning she telephoned the police station and requested that her husband be ejected from the domicile. She refused to swear to a complaint and the officers took no action. Last week Mrs. Borwell had her husband arrested on a battery charge but refused to prosecute him.

BOARD OF EDUCATION  
CUTS OUT WELCHERS

Annuls Insurance Held by Cheap Insurance Companies and Transacts Much Other Business.

BERKELEY, Aug. 29.—A large amount of business was transacted by the board of education at its regular session held last evening in the town hall. Provision was made for a botanical laboratory in the high school, which is to cost \$300. The salaries of the principals of the McKinley and Whittier schools were increased to \$30 a month; changes were made in the teaching corps; new books were ordered purchased, and insurance policies of the companies which repudiated the San Francisco fire losses were annulled.

The committee on school houses and sites reported that since the grading of the Columbus school yard, another cement step would have to be constructed, and that the work of grading the various other school yards had been delayed because of the inability to secure teams for hauling the stone.

Director Sutherland reported with regard to the installing of umbrellas in the schools that about thirty would be required at a cost of about \$7, and that they would be artistically designed. The matter was referred to the finance committee for action. Sutherland also made report on the number of cupboards required in the Whittier and Lincoln schools for the storing of books, stating that it would take sixteen for the former and six for the latter, the cost to be \$45.

## PRICE TOO HIGH.

The other directors declared that this was too high, and that this number was not required. It was suggested that the number of cupboards be cut down to eighteen, which would bring the cost down to \$100. The matter was laid over until there should be money available for this purpose.

## CHANGES RECOMMENDED.

The superintendent recommended changes in the teaching corps and the employment of two new regular and one substitute teachers. Miss Jeanne, substitute teacher, Miss Jeanette Whittier to the Hillside school to fill the vacancy caused by the illness of Miss Potwin. Mrs. Clara Elliott was assigned to fill Miss Barrows' place in the Whittier school. Miss Mabel McKee was appointed substitute to fill Mrs. Elliott's place. Miss Minnie Dipple was transferred from the fourth and fifth grades of the Whittier school to the second grade in the Columbus school, and Miss Lula Steadman was employed to fill Miss Dipple's place.

Miss Mary E. Freeman was chosen as regular substitute teacher in the schools.

## A NEW FLAGPOLE.

The superintendent recommended that the flagpole on the Le Conte school be removed and a new one put in its place in the school yard. HeCo. \$15.00; Sunset Telephone & Telegraph Co. \$26.15.

PASTOR ADDRESSES  
PEOPLE'S COLLEGE.

BERKELEY, Aug. 29.—The People's College was addressed Monday by Rev. William Rader upon the subject "Uncle Sam, or the Reign of the Common People." He gave a graphic description of a cartoon of Uncle Sam, which furnished him the theme of his lecture. He said in part:

"Uncle Sam is the representative American. He is a composite picture. Americanized people of all nations make up this type."

"Uncle Sam has a political system all his own. The great heroes, Patrick Henry, Daniel Webster and other great men have made splendid contributions to the government of the United States and to American civilization. In heroic ideals and service and in their spirit of sacrifice they ranked among the foremost citizens of our country."

"I am ashamed of the un-American type that is forever waiting to criticize everything American. It makes my blood boil."

"Uncle Sam has his own type of religion. He is not demonstrative nor always ready to tell his creed, but his religion is real and practical."

"Uncle Sam has his own educational system. It is a splendid provision for the American people. He has his American type of humor and wit combined with a peculiar sensitiveness."

"The typical Uncle Sam is the embodiment of strong common sense and intense business activity and determination that the right shall ultimately conquer."

ANNEXATIONISTS  
VICTORIOUS

Claremont District Joined to Berkeley by Vote of Three to One.

The Claremont district is to become a part of Berkeley. The vote for annexation at the election held yesterday was 250 to 86 in Berkeley and 4 to 0 in the Claremont district.

Those who voted from the annexed district are Howard Smith, G. B. Ocheltree, W. O. Flynn and Norman J. Greathouse.

## STRONG OPPOSITION.

There was strong opposition against the annexation project in the First and Seventh Wards. It failed to carry in only the Seventh ward, which also cast a large vote against the Ocean View proposition yesterday.

	For	Against
Ward 1	48	38
Ward 2	52	2
Ward 3	51	5
Ward 4	51	4
Ward 5	53	1
Ward 6	58	6
Ward 7	12	20
Total	280	54

Opposition to the annexation of the outlying district developed during the morning under the leadership of Captain E. J. Martin, who maintained that the Claremont hotel would get all the benefits of the fire, police and street departments of the town without giving anything in return. The annexationists kept up an active campaign throughout the day and finally won the fight.

PEMBROKE  
MAY NOT BE  
CONVICTED

FRUITVALE, Aug. 29.—Ed Stanley, for the robbing of whom Percy Pembroke is now on trial on charge of highway robbery, is unable to positively state that Pembroke was one of the two who despoiled him.

"I was robbed by two men. I have been Pembroke, but I am sure that I cannot identify him," said Stanley yesterday to a TRIBUNE reporter. "Both of them talked considerably, but of course, I could not identify them by their voices. Nor was there any peculiar gesture or of dress, that I remember, except that he wore dark clothes."

James Crowhurst, in the confession that sent him to Folsom for eight years for the hold-up of a police officer, implicated Pembroke in the crime. Pembroke's preliminary hearing is pending before Justice of the Peace Geary and the prosecution is necessarily laying much importance on the identification of Pembroke.

Crowhurst's accomplice, without such identification of a case will fail.

## The Defiance and Its Answer.

The defiant note in Patrick Calhoun's published proclamations forebodes ill for a speedy adjustment of the street railway strike. The answering note of defiance in what Richard Cornelius, president of the Carmen's Union, has to say is equally discouraging. "If you don't come back to work at once the United Railroads will not treat with you at all," says Mr. Calhoun. "Publish what terms you propose to give us before we go any further," cries Mr. Cornelius. There is not discernible in the attitude assumed on both sides any disposition to compromise the difficulty on an amicable basis. Each side presents an unconditional demand without promise of return concession. Two roosters, each on his own dunghill, crowing for battle would present as peaceful a spectacle as Mr. Calhoun and Mr. Cornelius are now affording us.

In the meantime the people of San Francisco are suffering great inconvenience at a time when every possible convenience is urgently required, and it is reported that an army of strike-breakers, under the command of the notorious Farley, is on the way out here from the East. Farley's men are not street carmen; they are fighters and toughs, and they engage to break strikes for high wages paid temporarily. These men will not take the places vacated by the strikers, doing the same work for the same number of hours, for the wages formerly received by the carmen, and if anybody thinks their appearance in San Francisco will not be the signal for violent disturbances such person will be blind to the lessons of experience and the promptings of human nature.

The carmen made a mistake in striking without giving the president of the United Railroads time to arrive here or a chance to offer settlement, but Mr. Calhoun is showing as little tact and less of the spirit of compromise as the attitude which makes a peaceful adjustment impossible. He persisted in. He talks fight and is preparing to fight. He would know that warlike words and actions provoke a hostile feeling.

As to the men's sense of justice and love of fair play, completely an assurance on his part that they could depend on fair play. In our opinion, have placed him at once in a position to take a speedy and peaceful settlement. Unfortunately, he chose to appeal to the public instead of the men and to arraign his striking employees at a bar of public opinion for breach of contract and bad faith instead of putting it up to them frankly and considerately. He used a good position to a bad advantage, and the result is a bad situation which every one deplors. Besides, Mr. Calhoun should have remembered that his carriers in San Francisco are getting five dollars a day for eight hours work, while his platform men were working strenuously ten hours for wages ranging from \$2.50 to \$2.75 per day. The work is harder than ever before, and the company is deriving a larger return for its labor outlay than at any previous time. There was also the altered conditions which made street car service arduous and disagreeable, and the enhanced cost of living. A wise and thoughtful man would have taken all these matters into consideration, and have gently chided and remonstrated with his men for acting hastily and unfairly.

But Mr. Calhoun chose to blow his war trumpet, and Mr. Cornelius, nothing loth, takes up the defiance and hurls it back. A volcanic situation is produced in the community that may become dangerous at any time. The whole labor situation may be involved, and a general industrial tie-up ensue, because two wrong-headed men will not try to do the right thing in the right way.

The Grass Valley Union says Nevada county would have elected a Pardee delegation if a primary had been called. Probably that was why no primary was called. A number of appointed anti-Pardee delegations will misrepresent Pardee counties in the Santa Cruz convention.

The Grass Valley Union says the organizers of the Independence League are "betraying the Democracy." How so? Is there any law forbidding a man to withdraw from the Democratic party and join another, or assisting in organizing a new party? Public men frequently shift from one party to another. We have had too many examples of this in this State for a change of party affiliation to be taken as either strange or disreputable. Henry H. Haight was elected Governor of this State before he was fairly settled in the Democratic party. He served twice mayor of San Francisco, and once the Democratic candidate for Governor, abandoned the Republican party, to enter the Jeffersonian fold. Senator Newlands of Nevada started as a Democrat, turned Republican, then Silver Party man, and finally joined the Democrats. Abandoning the Democratic party to join another is not betraying that party any more than it is dishonorable. Our Grass Valley contemporary has got its ethics and definitions mixed. Abandoning the Democratic party is, fortunately, not compulsory.

Some of the stories about the alleged ruin caused by earthquake in San Francisco, which continue to crop up in the Eastern press, are being spread by the wretched insurance companies. By getting these stories into print, the companies are covertly making a record of the way they have repudiated their honest obligations. These are the very tales written up to excuse and cover up cold-blooded, carefully studied-out dishonesty.

It is safe to say the President will be considerably annoyed and make not a few blunders, in trying to adapt himself to the reformed style of spelling. When a man has learned to spell one way, and accustomed himself to that mode of spelling, the task of adopting a new style is doubly hard, for he has to unlearn what he learned before as an incident to learning another method, and then he must overcome the force of habit. That is why spelling reform is so difficult of accomplishment. Invariably the reform is taken up after the education is complete and the habit of thought and writing fixed. It is like teaching an old dog new tricks. Hence spelling reforms are slow and gradual, a letter being dropped here and a syllable there from time to time, allowing the changes in orthography to creep into the language without jar or disturbance or uprooting the habit fixed during the plastic period of youth.

The revival of the talk about annexing Cuba is ill-timed and mischievous. Our country is under the most solemn obligations to respect the independence of Cuba, and it is bound by treaty to protect the island from invasion by other nations. In the treaty is a stipulation that the United States may interfere whenever interference seems necessary to preserve the peace and tranquillity of the island. It is to be hoped that such interference may never become necessary; at any rate, there should be none till there is no other recourse against prolonged internecine war. Cuba cannot be annexed with the nation violating its pledged faith and putting to shame all the professions of philanthropy so freely indulged in by the press and the public men of the United States.

## LEAD, KINDLY LIGHT.

From wanderings long and fair, again I see  
My boyhood's home, so dear in thought to me;  
I seek my playmates now, with anxious eye;  
Some old and gray; some in the churchyard lie;  
But bird, and bee, and flower, so sweet and fair,  
That yields its perfume to the summer air;  
And sky and cloud, with ever variant hue,  
Are still the same, and still, and ever, new.

The village church invites to prayer and praise;  
Its zealous choir their untrained voices raise;—  
"Lead, kindly Light, amid the encircling gloom,  
Lead Thou me on.

The night is dark, and I am far from home;  
Lead Thou me on."  
So many years, while I was far from home,  
O'er trackless seas, and unknown lands to roam;  
My feet were safely kept,—I did not see  
The Hand that sheltered and protected me.

In track of commerce, and in busy mart,  
My steps no longer turn, I take no part  
In mad pursuit of pleasure, wealth or fame;  
I see in honor but an empty name.  
My neighbors' love and sympathy I share;  
In sorrow and affliction, comfort bear;  
The path of duty is the way I see;  
To know it well—"One's step's enough for me."

My life a conflict fierce has been, but now  
No trace of care or sorrow frets my brow;  
And though the darkest hours of night are gone;  
Still this my constant prayer: "Lead Thou me on."  
I need Thy guidance even through the day,  
Lest into devious paths my feet should stray;  
I look not back, through doubt, distress and tears,  
But hopeful say: "Remember not past years."

And so, in sweet content, I trust in Thee.  
Thy loving kindness, Oh, how great to me!  
"So long Thy power hath blest me, sure it still  
Will lead me on  
"O'er moor and fen, o'er crag and torrent, till  
The night is gone."

O, Kindly Light! still shed Thy gentle rays  
On me, through lonely nights and dreary days;  
And when my life and service here are done;  
To realms of heavenly bliss "Lead Thou me on."

March 17, 1900. LEONARD S. CLARK.

Speaking of the street car strike, the Fresno Republican says "public sentiment will be on the side of fair play in this contest, and the side that plays the fairest will win." It ought to win if it does not. The Republican strikes the right note. An appeal to public sentiment must be made in a spirit of fairness and accompanied by fairness. The public cannot be treated fairly by unfair tactics.

## THE VICE OF GENERALIZING.

According to Rupert Hughes, writing in the current Harper's Weekly, the habit of generalizing from single sentences is far too general and influential. One would think, from some of the generalizations, he says, that the monopolists of money, for example, had also monopolized wickedness. "Yet the news of the day will tell of preachers caught in plagiarism or adultery, of druggists selling poisoned soda water, of bakers vending unclean bread, of theological students cheating." Each trade, he says, has its graft. The fact is that drawing indictments against nations." There are "burglars who are drawing indictments against nations." There are "burglars who are chaste and parsons who are sots; there are rich women who are nuns of asceticism, and poor women who are so vilely extravagant as to bankrupt their ditch-digging keepers; there are poets who are domestic models, and plumbers who are voluptuaries; there are rich men who overwork, and poor men lazy enough to beg; there are millionaires' sons who are normal and athletic, and self-made men who are degenerates, there are robust athletes who are abnormal, and cigarette fiends who are leaders of progress; there are Sicilians who never saw a dagger and Puritans who seek vendetta with a knife or with poison; there are policemen who would reject a bribe, and senators who are devoted to their country; there are chorus girls of unimpeached repute, and Sunday-school teachers who commit infanticide."—Exchange.

"Let's have it," replied Ascum.

"Science has proved," said the professor of astronomy, "that there is no water at all in the moon. Now, what do you deduce from that?"

"That there is some excuse," replied the freshman, "for its getting full so regularly."—Philadelphia Ledger.

"Tom has changed a great deal."  
"To his own advantage?"

"Yes, that's just it. He used to set 'em up once in a while, but he's got to be a regular tight wad."—Baltimore American.

## EAGLES HONOR THEIR NEW STATE PRESIDENT

Dr. H. B. Mehrmann Banquet and Toasted Following Illuminated Parade Last Night.

A banquet with 1500 guests, preceded by a procession illuminated with red fire and various forms of pyrotechnics, was the manner in which the Fraternal Order of Eagles did honor last night to Dr. H. B. Mehrmann, the newly-elected State president of the order.

Such a banquet in size, decorum, heartiness and good-nature has never been held here in Oakland. There was not a vacant chair at the tables. The menu was appetizing, the leading spirits, rank and file, of the organization, were there, the orators were there, the funny men were there, and all were as merry as kittens in a basket of wool.

### POPULAR ORDER.

The order of the "proud bird of the mountain," otherwise known as the Fraternal Order of Eagles, is one of the most popular and successful organizations of its kind in this section of the country. It is especially strong in Oakland and vicinity, and in no place is more enthusiasm displayed by the members in the furtherance of the purpose of the society.

### SPECIAL INCENTIVE.

In this instance, however, there was a special incentive for the display of good feeling and enthusiasm, because the man who is among the most genial and hard-working of the devoted members of the organization, Dr. H. B. Mehrmann of this city, had come back from the last State meeting, bearing with him the honor of highest executive among the Eagles of California.

There was a desire, therefore, on the part of series of the order hereabouts to do honor to the man who had been so signally distinguished and in furtherance of this idea, the branches of the order in this city, Berkeley, Alameda, Hayward and Livermore outlined the tribute of last evening, and made it an overwhelming success.

### STREET PARADE.

Before the assembling around the festive board the members of the order marched through the principal streets in the heart of town with a military bearing that would have done honor to a regiment of veterans. They no doubt received inspiration from the field music furnished by the magnificent drum and bugle corps which, for a long time, has been without a peer in this State.

State President Mehrmann did not

arrive at the hall until after the banquet had assembled, and his appearance was the signal for a burst of applause and cheers which continued for some time. When, at length, the guest of honor had been seated, there was a rattling of knives and forks, a flow of conversation, a running fire of laughter and good-natured jest, which was continued for about an hour and a half. When silence was called for it was announced that Judge Mortimer Smith would preside as toastmaster, and the announcement was greeted with cheers.

### ADDRESS BY MAYOR.

Judge Smith then called upon Mayor Frank K. Mott, who responded to the toast "Our City." Mayor Mott congratulated the members of Oakland Aerie, No. 7, on their success in winning for their past president the most exalted office in the State, and added a few remarks touching on the future of the home city of the aerie.

Deputy District Attorney A. P. Leach responded to the toast "Our State President," paying a glowing tribute to the head of the order in California.

### OUR ORDER.

State President Mehrmann was the next speaker, the subject of his address being "Our Order." He thanked the members of the Alameda county aeries for their hearty support in his fight for the exalted office he now holds.

Senator Frank M. Leavitt responded to the toast "Our State," and "The Ladies" were consigned to the care of Judge James G. Quinn.

Sheriff Frank Barnett delivered a witty address on "The County Jail," and "The Press" was responded to by Colonel M. M. Ogden.

### THE OFFICERS.

The officers of the local aerie are as follows: President, Mortimer Smith; vice-president, Samuel H. Short; chaplain, E. A. Buswell Jr.; secretary, John W. Mott; financial secretary, William Belmont; treasurer, George T. La Fleche; inside guard, Charles W. Denny; outside guard, Ray Scanlon; Trustees—O. A. Smith, M. A. Fitzpatrick, John N. Bonham, Physicians—Dr. C. E. Curtis, Dr. George G. Reine.

Much of the success of the evening was due to the efforts of the house committee of Aerie No. 7, William B. Smith, Will J. Culligan and George Vollmer.

Miss Ada Bates is enjoying an outing at Lake Tahoe.

Miss Bartha and Miss Minnie Wilcox are guests at the Oliver Orrick country home, Los Gatos.

Mr. and Mrs. Frank Brigham and their family leave early in September for an automobile trip through the south, and will be away for a month.

### SHAKESPEAREAN PLAY.

The interest in the "Midsummer Night's Dream" to be presented Saturday evening at the Greek theater is not confined to the college town. Many people are planning to go from Oakland and San Francisco and the unusual performance will doubtless meet a large and appreciative audience. It will be of great interest to many to learn that the play will be given a discussion and interpretation tomorrow afternoon at half past three by Mrs. Mary Fairweather at the home of Miss Theda Carter, on Myrtle street. The reading last evening of Shakespeare's "Tempest" by Mrs. Fairweather was attended by a large number of local society and literary people.

## WILL TENDER BIG RECEPTION

Nebraskans Will Greet Bryan On His Arrival From Trip Abroad.

NEW YORK, Aug. 28.—Hundreds of persons came into town today to attend the reception to William J. Bryan, and the hotels are assuming a lively appearance. Every visitor is bubbling over with Bryan enthusiasm, and the signs are that Mr. Bryan will get one of the most hearty greetings that his followers have ever given him. The steam yacht Ithini, belonging to Edward F. Goitra, of St. Louis, upon which Mr. Bryan is expected to make his entry into this city, anchored off the yacht landing at the Battery early today. The yacht will cruise around the upper bay, but will keep in touch with the battery until the steamer Princess Irene, which is bringing Mr. Bryan, is sighted.

Mr. Bryan will be taken off the steamship at quarantine, according to the present plans, and will there be welcomed by Norman Mack, Lewis Nixon, Mayor Brown of Lincoln, Neb., and Harry W. Walker. It is expected that after Mr. Bryan has been welcomed by those on the yacht, he will be put aboard the tug Eugene Moran, which has been chartered by the Nebraska delegation, to enable him to shake hands with his "home folks." He will then return to the yacht.

When the steamer reaches port the yacht will run up Long Island Sound and anchor for the night off the home of William Howe, president of the Commercial Travelers' Anti-Trust League, at Rye, N. Y. Mr. Bryan will not leave the yacht. In the morning the yacht will cruise up the sound, returning in time to the yacht landing at the Battery to permit Mr. Bryan to land at 4 p. m. tomorrow to meet the reception committee and take part in the parade.

Arms and Samuel McGowan; Marine Corps—Brigadier General George F. Elliott, Colonel Charles L. Hauchelmer and Lieutenant Colonel James J. Mahony.

### SPOKE ON THE RUBY OF RELIGION

Dr. Ray Palmer preached last night at the special meetings at the Baptist Church on "The Ruby of Religion." Prov. 3:11, "Whom is better than rubies."

The speaker said in part: "The ancients believed the ruby had power to illuminate the darkness, to heal sorrow and to keep from harm. This was a mistake, but the rubies of Jesus Christ have all these things. Men in making rush off to the wine cup to drown sorrow, only to find the scorpion and the adder in the bottom of the glass. Many to cure sorrow plunge into a life of worldliness and pleasure."

Dr. Palmer will preach tonight on "Voices of the Dead," and tomorrow, at 2:30 o'clock, on "The Cup of Cold Water."

## TEN THOUSAND SQUARE FEET

This Immense Area to Be Exclusively Devoted to Kahns' New Cloak and Suit Department.

Oakland is to have the largest, most beautiful and most complete cloak and suit store on the Pacific coast, covering an area of nearly ten thousand square feet (exactly 100x85), taking up the entire second floor of the Kahn building, corner of Twelfth and Washington streets is the plan decided upon by Kahn Brothers, proprietors of the big department store.

Plans for this work had been arranged before the fire and the department would probably have been in their new quarters by this time had it not been for that unfortunate and unforeseen event. As everybody knows the demand for Oakland offices was far greater than the supply and it was for them for a while, at least, verged upon a panic. The Kahn Brothers, however, have decided to temporarily suspend the work of reconstruction and the fitting up of the suit and cloak department, in order that the space might be used by those so much in need of temporary business quarters—consequently, at a direct loss to Kahn Bros., to be rented at a nominal rental to certain business people. These concerns will be allowed ample time to find permanent offices and immediately after the first department will be ready for business.

Upon more than one occasion this enterprising concern has shown their confidence in the future of Oakland. They conduct today the largest store of the kind in this city. That they propose to keep up the pace in the future is proven by the aggressive manner in which they are improving every opportunity. With the acquisition of such an immense space for the exclusive selling of women's tailor made garments, with the largest department of muslin underwear and infants' wear in the city, with the sole selling right of Sorosis shoes, coupled with a general dry goods and house furnishing business of immense proportions, the Kahn Bros. are equal in size, scope and popularity any department store in the Pa.

## NANCE AND GOINGS-ON AT PLAYERS CLASH RELANCE CLUB

BERKELEY, Aug. 29.—Trouble has arisen between Captain J. T. Nance, the military instructor at the University of California, and the football squad over the cultivation of the old football field west of California Hall for use in the practice of the Rugby game.

The source of the trouble is the statement of Captain J. T. Nance of the military department, who declares that the field has been turned over to him for use as a drill ground and cannot be cultivated for a football practice field.

At the Rugby practice on the unutilized field yesterday two members of the squad received sprained ankles because of the poor condition of the field. At the time that the field was used for a refuge camp shortly after the San Francisco fire, trenches were dug about the grounds. These trenches have now been overgrown with weeds and grass, and as they cannot be readily seen as a constant menace to the men, as is shown by the injuries received by two members of the team. Captain Nance refuses to have the field used as it will ruin it for a drill ground in his estimation.

The matter has been taken to President Whelan, who will investigate the rights of the commandant in his refusal to turn over the field to the students, and come to a decision. Captain Nance's matter is amicably settled within a few days the team will suffer no serious setback.

## BUSINESS MEN TO PLAY AT BASEBALL

A game of ball which should rouse the interest of all the retail and wholesale houses around the bay is to be played Labor Day, September 3, at Freeman's park, at 10:15 a. m., between teams from the houses of the Pacific Coast Paper company and A. K. Kellner & Sons.

The teams have been practicing for about two weeks, and the article of ball should be played on both teams. The admission will be free, so a large crowd should be there to cheer them on.

The literature of the teams will be as follows:

## PLAYERS DEMAND HALF OF THEIR PURCHASE PRICE

Phonograph Records and Catcher. The players of the Oakland Athletics, who are on tour in the Portland, Ore., league, have demanded that the team should pay them half of the purchase price of the players who are sold to other teams.

The players of the team, who are on tour in the Portland, Ore., league, have demanded that the team should pay them half of the purchase price of the players who are sold to other teams.

Not a Regular Contract. The players of the team, who are on tour in the Portland, Ore., league, have demanded that the team should pay them half of the purchase price of the players who are sold to other teams.

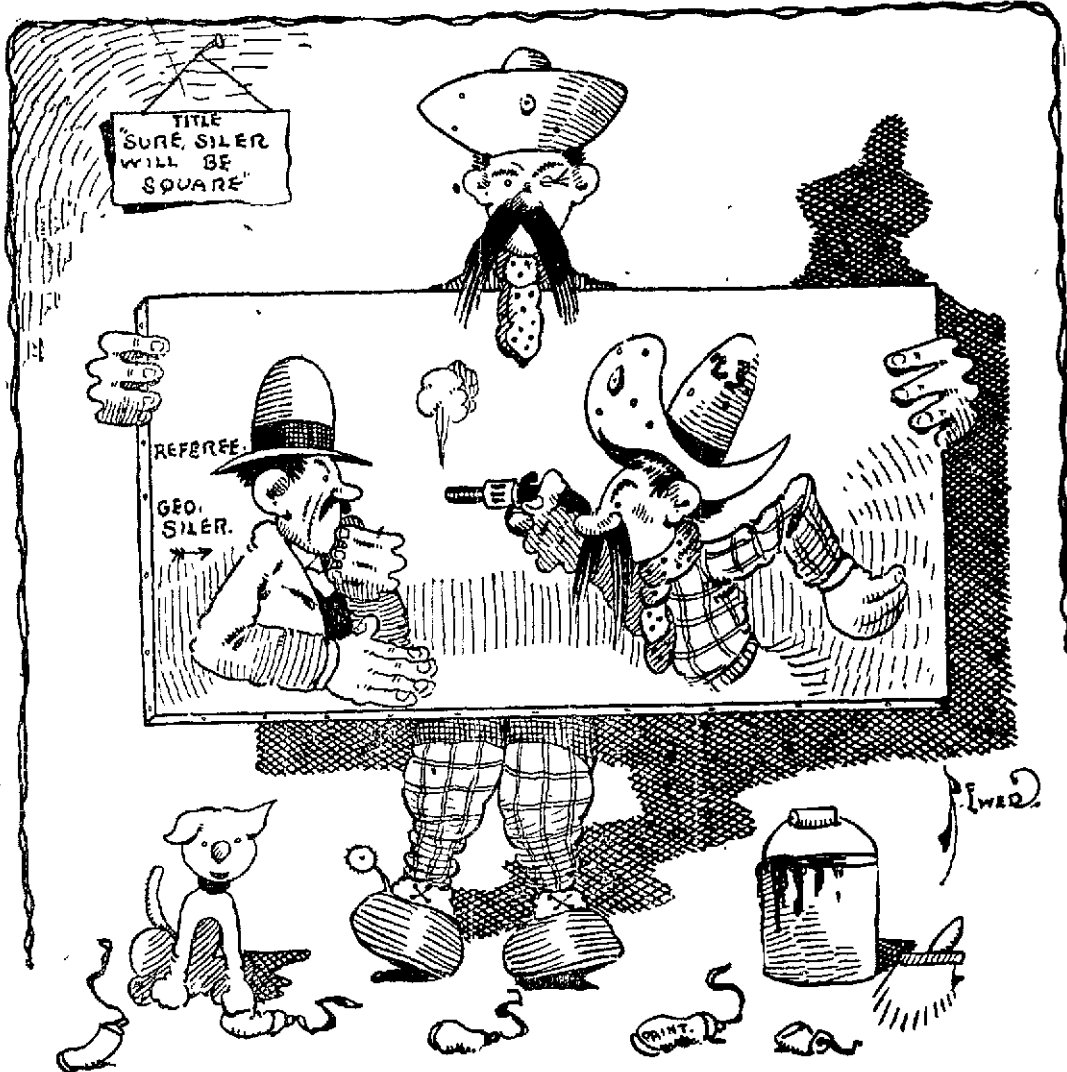

Essick and McLean got personal letters from Wm. Long, the Cincinnati scout, offering him a salary of \$200 a month. They are to have from September 15 to May 15 to show what they can do. Long told them however that their full consent was wanted to all the terms.

## SKIN DISEASES FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Puscles are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding. Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

## VAN HALTREN TALKS OF TEAM'S NORTHERN TRIP

The Oakland ball team is home again, having played its first game with Fresno at Idora park yesterday afternoon, and having, by the way, taken the visitors into camp.

When asked this morning as to his northern trip, George Van Haltren, captain of the Oakland team, said: "We had a pretty hard time of it in the north, especially at Portland. The Portland diamond is very rough and irregular and I don't believe that grass was ever known to have grown on it. The ground is very hard and firm, in fact, it is so hard that it hurts the players' feet while running bases."

"No matter how good a player our men would make, there never was any mention about it in the Portland papers."

"We should have won a great many more games than we did, for we have a good aggregation of pitchers, but somehow or other we generally came out on the short end of the score. Now, for instance, Kelly, out of seven games pitched, should have won six games, where he only won one."

"Haley, the St. Mary's College man, is a good, lively player and he is improving all the time. Young Hopkins is another good man, although he is rather light, yet, and he can't pitch a good nine innings. I call Hopkins a 'hard luck kid' because he chumps a pitch in every game in which it is hard for us to score."

"Devereaux was hit in the head by a swift ball while in Portland, and it affected his batting to a great extent. 'Some one told me a while ago that one of the San Francisco papers published an article saying that Franks was playing indifferent ball, as much as to say that he didn't care a continental whether the team won or lost. But they are entirely wrong. Every one on the team now is eager to play a winning game and is putting forth every effort to encompass the defeat of our opponents.'"

Starting with yesterday afternoon Oakland plays here one month, and then goes to Los Angeles for a week. Then the team will come back here to play five weeks, which will finish the season.

BERKELEY, Aug. 29.—According to the report of Graduate Manager Shedd, work on the widening of the California field to make it fit for the game of Rugby football, will commence as soon as the necessary men can be obtained from San Francisco.

After excavating is done the east bleachers will be moved back twenty-five yards. The contract for this has been given to the Grant House Moving Company. They expect to be able to move the entire row of bleachers at one time, at a cost of \$2000.

The news of the new game only require that the field be twenty-three yards wider, but the executive committee has decided on forty-five yards. A rate of \$2 for the round-trip will be made from Oakland, Alameda, Berkeley, Stockton, Sacramento, as well as San Francisco—members of the party having the privilege of occupying sleepers while at Goldfield. Tickets will allow of those not desiring to return with the special train to return on any train up to and including September 10. Those of the excursionists desiring to stop over at Truckee for the purpose of visiting Lake Tahoe may so arrange on the return trip. For further information see Southern Pacific Co., 15 San Pablo avenue, Oakland, Cal. Phone Oakland 544.

LOS ANGELES, Aug. 29.—After one of the greatest exhibitions ever seen in the local ring, and after being subjected repeatedly to fouls at the hands of "Fighting" Dick Hyland, "Cyclone" Johnnie Thompson, the whirlwind boxer of Sycamore, was declared the winner in the ninth round of what was to have been a twenty-round contest. Hyland's fouling tactics were in evidence from the start to the finish of the fight. In the second round it was a hard right to the groin that sent the Cyclone to the ground. Five times during the fight Hyland delivered blows, his last one, in the ninth, giving the decision to Thompson. At the end of the third and fourth rounds Hyland hit Thompson after the gong.

BERKELEY, Aug. 29.—Robert A. Roos, '04, has stated his intention of allowing the Roos Punting Cup to stand as a trophy for Rugby football as it was for the old intercollegiate game.

Roos took a keen interest in athletics while in the university, and last year he presented the cup in order to further interest in football, and especially punting. Last season the cup was won by Roy H. Elliott, '06. The name of the winner each year is placed on the cup and it remains in the possession of the university.

## GANS AGREES TO NOLAN'S DEMANDS OAKS APPLY A COATING OF WHITE

GOLDFIELD, Nev., Aug. 29.—Everything is secure. The fight which for nearly three hours last night was on the verge of collapse was declared on about 10 o'clock after a three-hour session, during which Nolan and Gans nearly came to blows, and which, as usual, ended in a victory for Nolan. The bone of contention was whether or not Gans could weigh in stripped or be compelled to weigh in his fighting togs. Nolan insisted upon the latter, Gans upon the former, and Nolan came out with flying colors. After the session the club issued the following statement, signed respectively by Gans and Nolan:

"We will go on the scales with a pair of supporters and a pair of the kind of shoes that I must wear when I fight," Gans.

"This is satisfactory to me," Nolan. The meeting between Nolan and Gans was extremely cold and the arguments heated. Gans blurted out, "I want to fight because I know I can win, and am willing to weigh in stripped at 132½ pounds."

"You will weigh in with your fighting togs or there will be no fight," replied Nolan.

"If I was a white man, I'd lick you right here," retorted the colored man. GANS YIELDS TO ALL DEMANDS. "That kind of talk will not deter me from sticking up for my rights," said Nolan. Continuing, he said: "You will have to weigh as I say or there will be no fight, and I will forfeit my \$5000."

"That," said one of the club members to Gans, "will entitle you to half the forfeit, \$2500."

"I don't want the forfeit; I want to fight and lick this fellow Nelson," came from Joe.

Tex Rickard, president of the club, and the other members tried to induce Nolan to give way, but Billy stood pat and won.

The weight question settled and no other hitch in sight, the fight looks a sure go. Nolan, by offering to forfeit \$5000, naturally would forfeit \$2500—the \$20,000 which is Nelson's end of the purse, and \$5000 cash forfeit for weight and appearance. Besides this large amount he would lose the money the moving pictures would net him out of.

The sympathy of the club members and the populace is with Gans. Tex Rickard said: "That nigger is a white man. He has taken the worst of it all through."

The general impression is that Nolan is either afraid Gans is too tough a customer, or, finding he could make the weight at 133 pounds too easily, imposed the extra handicap of weight in fighting attire. It is thought that Gans had experienced trouble in training to weight Nolan would have permitted him to get on the scales stripped.

QUEST from Indianapolis. This was in the days previous to the "reserve rule." After the Chicago club had secured all the stars, including George Gore and Dalrymple, he introduced the reserve rule at the next league meeting and held the players ever after.

Kelly played with the Chicago club until 1886, when he left in a huff and again I was present on the occasion. It was just at the close of the ball season and Chicago had won the championship after a hard series with New York and through the wonderful work of Kelly.

The day after the closing game Kelly came into A. G. Spalding's office, on Madison street, and asked for an advance on the following season's salary. Mr. Spalding refused. Kelly turned on his heel, almost ran down the stairs, and said:

"I have worn a Chicago uniform for the last time. I would carry a hoo before I would sign another contract with Spalding."

He was kept his word, for that fall he was sold to the Boston club for \$10,000, the highest price, by many thousand dollars, that a ball player was ever sold for up to that time. He remained with Boston until the brotherhood strike, when he jumped, but returned and then went to New York and from there to Lancaster, Pa. He retired shortly after that and died. His funeral was one of the greatest ever seen in Boston.

While he was playing with that team the fans presented him with a house and lot which his wife now occupies.

Oakland celebra its return home yesterday with a victory. The team defeated Fresno at Idora Park by a score of 4 to 0 in a game that was highly exciting while it lasted. The Raisin Eaters had Warren Hain on the hill and he did the best he knew how, but he could not keep Van Haltren and his merry men away from the plate. Up to the fourth inning it was a pitchers' battle, but in that round the Commuters chased a run across the plate and clinched the game, for the men from Fresno had not bally.

Both Hain and Graham pitched clever ball, and altogether the game was one of the best seen at Idora Park for some time.

GUM PROVES  
A WINNER  
AGAIN

PORTLAND, Aug. 29.—Gum again proved the effectiveness of his pitching yesterday by allowing the Seals only three hits and winning his game, 4 to 1. San Francisco did not score until the ninth, when a fly from Mohr slipped through the hands of Mike McLean in left field, which was responsible for the one run. Umpire's Manager put Parke Wilson out of the game for using profane language.

When William had walked four men Wilson could not resist temptation and addressed some expletives in the direction of the umpire, which resulted in the Seals basemen witnessing the remainder of the game from the grand stand.

## BIG SALARIES OF TODAY; WHAT "\$10,000 KELLY" GOT

BY OTTO FLOTO.

Surely the country is baseball crazy just at the present time. Never in the history of the sport has such prosperity prevailed, and one and all of the leagues, big and little, with very few exceptions, are making a great deal of money.

Wonder what Mike Kelly, Ed Williamson and "Silver" Frost would say if they were alive today and knew of the salaries some of the players were receiving. Why, it's enough to make them turn in their graves.

It may be news to many, but it's a fact, nevertheless, that the greatest ball player that ever lived, Mike Kelly, received only \$2800 from the Chicago club, and that was the highest he ever got.

FINDING KELLY. Don't time just fly? I remember when Nolan's attention was first attracted to Kelly. It was in 1878. He was playing right field and a change catcher for the Cincinnati Reds. The ball park at that time was located on the lake front in Chicago, and all who remember it recall the short right field and any kind of hit went over the brotherhood strike, when he jumped, but returned and then went to New York and from there to Lancaster, Pa. He retired shortly after that and died. His funeral was one of the greatest ever seen in Boston.

While he was playing with that team the fans presented him with a house and lot which his wife now occupies.

## ROOS CUP TO STAND AS A TROPHY

BERKELEY, Aug. 29.—Robert A. Roos, '04, has stated his intention of allowing the Roos Punting Cup to stand as a trophy for Rugby football as it was for the old intercollegiate game.

Roos took a keen interest in athletics while in the university, and last year he presented the cup in order to further interest in football, and especially punting. Last season the cup was won by Roy H. Elliott, '06. The name of the winner each year is placed on the cup and it remains in the possession of the university.

BERKELEY, Aug. 29.—Robert A. Roos, '04, has stated his intention of allowing the Roos Punting Cup to stand as a trophy for Rugby football as it was for the old intercollegiate game.

After excavating is done the east bleachers will be moved back twenty-five yards. The contract for this has been given to the Grant House Moving Company. They expect to be able to move the entire row of bleachers at one time, at a cost of \$2000.

The news of the new game only require that the field be twenty-three yards wider, but the executive committee has decided on forty-five yards. A rate of \$2 for the round-trip will be made from Oakland, Alameda, Berkeley, Stockton, Sacramento, as well as San Francisco—members of the party having the privilege of occupying sleepers while at Goldfield. Tickets will allow of those not desiring to return with the special train to return on any train up to and including September 10. Those of the excursionists desiring to stop over at Truckee for the purpose of visiting Lake Tahoe may so arrange on the return trip. For further information see Southern Pacific Co., 15 San Pablo avenue, Oakland, Cal. Phone Oakland 544.

MERCHANTS ENDORSE PROPOSED BOND ISSUE

AT A MEETING OF THE MERCHANTS' EXCHANGE LAST NIGHT THE PROPOSED BOND ISSUE FOR NEW SEWERS WAS UNANIMOUSLY ENDORSED. THERE WAS A DISCUSSION OVER THE GARAGE QUESTION AND THOSE PRESENT HEARD IN ADDRESS ON THE PROPOSED ORGANIZATION OF A BRANCH OF THE PEACE ASSOCIATION IN THIS CITY, AND ONE ON THE CONDITION OF PRINCIPAL STREETS, AND HEADWAY BEING MADE REGARDING THE PROPOSED LAKESIDE HOTEL.

hinks Burning of  
Garbage Is Good  
Business.

When I am looking into the garbage question last night I visited the home of one of the owners of the city dump. It was a good business. I found a beautiful residence. In fact the place was of polished wood and I fully intended to go to the dump to see across the room.

Such was the statement at the meeting of the exchange made last night by Director J. F. Carl. For some time past the garbage question has been troubling the merchants of this city. Director Carl says that a contract to burn the garbage at a rate of \$100,000 a month from the city would mean that the city would have a monthly income of \$100,000. This is a very large sum of money. The city has not been able to pay for five months. This means that the city is in a very bad financial condition. The city is in a very bad financial condition. The city is in a very bad financial condition.

This action followed the reading of a letter from Mayor Mott requesting the committee to endorse the proposed bond issue for new sewers. The letter was read by the secretary, Walter Walker.

Say Clean Streets  
Would Please  
Ladies.

Naph B. Greensfelder of the Greensfelder & Bloch promotion company is apparently solicitous of the welfare of the ladies of Oakland. He addressed the members of the Merchants' Exchange at the meeting last night as follows:

"You want to keep the ladies comfortable and the best way to do this is to keep the streets in order. The merchants should attend to this. There is a regular barricade on Washington street. It is true that the traction company is making repairs there and I am of the opinion that the officials would correct the difficulty if their attention was called to it."

Wants a Branch  
Peace Association Here.

P. H. Scullin, representing the National Industrial association, addressed the members of the exchange and stated that a meeting of his organization was to be held tomorrow night in Foresters' hall. His purpose, he stated, was that the members of the Merchants' Exchange attend the meeting as a body, in order that all members might obtain an intelligent idea of the purposes of the association.

Scullin is advocating the formation of a branch of the organization in Oakland and stated that the meeting Thursday night would be addressed by Dr. C. R. Brown and the Rev. Father McNally, as well as by other prominent speakers.
